First Week of Events Proves Successful

As I sit writing this, our girls golf team has won three tournaments in three days, our boys tennis and soccer programs are hosting the first Hackett events of the year and volleyball is getting their season underway with tournament play. Things have certainly been busy this first week of competition and if the first few days are any indication of how the rest of the fall season is going to go, Hackett is in for a great year! As school starts up this Wednesday a reminder that athletes need to be in attendance by **11:00 am** in order to practice or compete in any sport unless otherwise excused by the front office.
