STUDENT - Athletes

Notice the emphasis on "Student" in student-athlete? At the end of the day, that is what scholastic athletics are all about, students. In the next few weeks eligibility notices will be sent out to all athletes and meetings with at risk students will be scheduled. Students need to be passing 66% of their enrolled classes to remain eligible, or five of seven classes AND maintain a 2.0 semester GPA. While athletics are an important part of Hackett, it is secondary to our overall mission of educating young men and women and preparing them for life after HCP. Eligibility and academic standing is something we take very seriously. Each student and their parent will know where they stand academically and benchmarks will be set and met. As Always, GO IRISH!!
